PROJECT SUBMISSION DATES (TENTATIVE)

Project-1-Draft 09.07.2018

Project-2-Draft 10.09.2018

A list of suggested Projects is given below:

1. Select a daily use consumer product. Trace its origin right from the primary industry through the secondary and tertiary industries. Draw a flow chart to include all the business activities in its path from the producer to the consumer.
2. Assume you are starting a partnership firm with your friend/friends. Develop a business plan covering the following aspects: – Formation of this partnership firm – rules and steps that would be followed including the partnership deed – Choice of types of partners involved and your justification for the same.
3. Select two infrastructure projects of public sector undertakings that have been recently commissioned. Analyze each project in terms of: – Objectives – Profitability – Adherence to the time schedule for project completion. – Social utility – Conclusion.
4. Identify two Public Private Partnership projects. Find out: – The equity participation of both the partners. – Objectives of the partnership – Strengths both partners bring into the venture.
5. Select one consumer cooperative and one housing cooperative. For each of the cooperatives: – State the objectives. – The organizational structure. – Details of surplus distribution and the form of government support.
6. Study real time cases in which organizations did not show responsibility towards investors/ consumers/ employees/ government/ community. Take at least two such cases. For each case prepare a report based on the following: – A brief about of the case. – Different issues involved in the case. – Who was at fault and why? – What should the company have done to stand by the business ethics? – Do you agree with the company's viewpoint? Give reasons.
7. Document and analyze the Corporate Social Responsibility activities of a pharmaceutical company and a five-star hotel. Comment on the changing role assumed by Corporates towards business ethics and social responsibility in the last two decades.
8. Identify any trade association and chamber of commerce headquartered in your town/city. Study each in terms of: – Its objectives. – Services provided to members. – Help given to the business community.
9. Contact an insurance agent and collect information about 5 different types of life insurance policies provided by different companies. Include information as per details given below for every insurance plan and make a comparative analysis. – Premium of insurance – Terms of inclusions and exclusions of each policy – Term of the policy – Withdrawal of money from the insurance scheme (surrender / foreclosure) – Advantages/disadvantages of the plan
10. Study the BPO and KPO industry in India. Collect newspaper/magazine articles on BPOs and KPOs. Prepare a report highlighting: – Their contribution to the business community and the nation. – Their growth over the past 10 years in India. Comment on the social cost of such organisations.
11. Visit a company that is involved in e-business (which offers online services) or a consultancy, which helps in developing websites for such companies. Study different aspects they keep in mind while preparing business plans for e-business. Include information regarding the payment mechanisms, security and safety of business transactions. The risks involved in e-business should also be covered. Also include the steps they follow while implementing the plan and starting the business.

A list of suggested Projects is given below:

1. Preparation of Journal / sub-division of journal, Ledger, Trial balance and Financial Statements of a trading organization on the basis of a case study.
 - Develop a case study of a sole trader starting business with a certain amount of capital. He could have got the amount from his past savings or by borrowing from a bank by mortgaging his personal assets or by winning a lottery or any other source.
 - Write in detail, his transactions during the year- his purchases - cash and credit, sales cash and credit, expenses, purchase of fixed assets and depreciation charged on them, any outstanding expenses, prepaid expenses, accrued income, drawing bills of exchange, accepting bills payable, etc.
 - From this case study developed (which should have at least 15 transactions), pass the journal entries, post them into the ledger, prepare a Trial Balance and the Trading and Profit and Loss Account and Balance Sheet.
 - The various expenses for comparison purposes, could be depicted in the form of bar diagrams and pie charts.
2. Preparation of the accounts of a Not-for-Profit-Organisation on the basis of a case study.
 - Develop a case study of an NPO by beginning with the primary motive of establishing it, that is, why have you decided to open a club or a library or a hospital, etc.
 - Write in detail about the sources of capital fund, subscriptions, donations (ordinary and special), other receipts and payments of your NPO as well as outstanding expenses, prepaid expenses, subscription due but not received, subscription received in advance, purchase of fixed assets and depreciation charged on them, legacy received, etc.
 - From this case study developed (which should have at least 15 transactions), pass the journal entries, post them into the ledger, prepare a trial balance and thereafter prepare the NPO's Cash Book, Receipts and Payment Account, its Income and Expenditure Account and its Balance Sheet.
 - The various expenses, for comparison purposes, could be depicted in the form of bar diagrams and pie charts.
