CHAPTER NO./TITLE	TOPICS	CHAPTER NO./TITLE	TOPICS
Numbers	Indian system of Numeration, International System of Numeration, Place value ,Face value	4. Sets	Representation of a set- Description method, Roster or Tabular form, Rule or Set builder form. Types of Sets and Cardinal number of a set.
2.Natural Numbers and Whole Numbers	Representation of whole numbers on a number line. Fundamental operations on whole numbers. Word problems involving large numbers. Patterns in whole numbers.	8.. Ratio and Proportion	Difference between fraction and ratio, comparison of ratios, problems on ratio. Proportion. Unitary method. Percent and percentage. Real life problems (FLN)
3. Integers	Representation of integers on a number line. Absolute value , comparison and uses of integers. Addition/Subtraction of integers Fundamental operations.	16 Constructions	Construction of a line segment of a given length using ruler and compass. Construction of a perpendicular to a line through a point on it. Construction of perpendicular bisector of a line segment. Construction of an angle. Construction of a circle with a given radius.
5.Playing with Numbers	Factors , Multiples, Types of natural numbers, Divisibility Tests of Natural Numbers, Prime Factorisation, HCF and LCM. Relation between HCF and LCM of two natural numbers.	17. Perimeter and Area	Perimeter and area of plane figures- Square , triangle and rectangle. Problem sums on area and perimeter of square and rectangle.

6. Fractions	Types of Fractions. Comparison of Fractions. Representation of fraction on number line. Fundamental operations on fractions. Word problems	18. Data handling	Organizing data- arrayed data, frequency table. Pictograph , drawing a pictograph. Bar graphs- Interpretation of a bar graph, drawing a bar graph, Mean and median of a data.
7. Decimals	Decimal numbers, Representation of decimal numbers on a number line, Fractions and decimal numbers. Operation and comparison of decimal numbers. Applied problems on decimals.	9. Percentage	Defination of percentage,conversion into fraction,decimal,ratio and viceversa.Find percentage of a quantity
11.Algebra	Variables and uses of variables. Terminology associated with algebra. Algebraic Expressions, Framing and types of algebraic expressions. Substitution and Linear Equations. Solving a linear equation in one variable.	10. Speed time distance	Define speed,solve daily problems related to speed,time and distance,Express relation between the three
12.Basic geometrical ideas	Point, Line , Plane and properties of points and lines in a plane. Line segment, Angles -Interior and exterior of an angle, Polygon, Triangles - Interior and exterior of a triangle, Altitudes and median of a triangle. Quadrilateral- Interior and exterior of a quadrilateral. Circle- Terms associated with a circle.		
PROJECT TOPIC	Symmetry	PROJECT TOPIC :	Understanding 3D shapes
Project submission date : (on or before)	11.08.2025	Project submission date : (on or before)	05.01.2026.
